

TB Tire Blast

Tire Cleaner

Tire Blast is a blend of detergents and solvents to remove tire and brake debris as well as road scum. High-foaming **Tire Blast** is designed for use in the tunnel or self-serve.

UB Under Body

Rust Inhibitor

Under Body is a blend of detergents that neutralizes rust and bonds to the underbody of a vehicle. High-foaming **Under Body** is formulated for use in automatic car washes.

TS Tire Shine

Tire Dressing

Tire Shine is a blend of concentrated high-grade silicon polymers that polish the tire for a lasting effect. Used in the tunnel or as a hand dressing, **Tire Shine** is formulated to be used in the tunnel or self-serve.

GS Glass Shine

Surface Cleaner

Glass Shine is a highly concentrated blend of concentrated cleaners and calcium removers that removes dirt and grime from glass. Low-foaming **Glass Shine** can also be used as bug remover in the pre-soak process.

S Shine

Brightwork Cleaner

Shine is a blend of high-strength acids that will shine any type of metal. Use in chrome and stainless steel towers inside an automatic carwash. **Shine** can be used on glass and paint to remove hard water spots.

Product Guide

E3 Elite-3 All-Purpose Acid

Elite-3 is a blend of acids and solvents that effectively remove build-ups and road scum. High-foaming **Elite-3** is formulated as a primary tower/spray, and works great in tunnels or self-serve.

XS X-Solved All-Purpose Cleaner

X-Solved is a blend of high-strength concentrated cleaners that removes all forms of road scum. Use **X-Solved** as a primary tower/spray or bug remover.

EW Econo-Wash High-Pressure Soap

Econo-Wash is a blend of concentrated cleaners and foaming agents. Use **Econo-Wash** as a pre-rinse or in a wand in the self-serve bay.

B Booster All-Purpose Alkaline

Booster is a blend of aggressive alkaline cleaners and calcium removers. Low-foaming **Booster** can be used alone or in conjunction with **X-Solved**, or as bug remover. **Booster** is formulated for use in the tunnel or self-serve.

T Truce Triple Acid

Truce is a blend of high strength acids and calcium removers that removes all forms of road grime. **Truce** can be used as a wheel brightener. Formulated for use in automatic car washes.

TF Triple Foam Conditioner

Triple Foam is a highly-concentrated blend of detergents, foaming agents, polishes and lubricants. High-foaming **Triple Foam** is available in a variety of colors and scents. Use **Triple Foam** as a conditioner to enhance shine. Formulated to be used in the tunnel or self-serve.

PC Proxy Clean All-Purpose Peroxide Cleaner

Proxy Clean is a high-foam blend of oxy-power cleaning agents, detergents and organic acids. Use **Proxy Clean** as a pre-tower bug remover, shampoo, or spray foamer. Formulated for tunnel use or self serve.

M Monsoon Protectant

Monsoon is a blend of silicon polymers, drying agents, polishes, protectants and foam removers. Use **Monsoon** as a final rinse to increase the performance of the wash. **Monsoon** is formulated for use in the tunnel or self-serve.

DRI DRI Drying Agent

DRI is a blend of drying agents and polymers that greatly reduces the H₂O left on vehicles after the final rinse. Formulated for use in automatic car washes.

HW Honey Wax Carnauba Wax

Honey Wax is a concentrated blend of carnauba wax and polymers that can be used in the detail shop or in the automatic tunnel.

"Busy Bee Car Wash Solutions are a top-of-the-line chemicals for an economical price. I couldn't be happier with their results!"
